

VISION AND STRATEGY 2010-2013

Vision:

We want to be an innovative and competitive hospital offering emergency services welcoming the future patient.

We want to contribute to a world-class healthcare system through dialogue, excellence and audacity by being an innovative and competitive hospital offering emergency services welcoming the future patient.

Strategies:

We want to create value through INNOVATION and ensure that:

We deliver quality in all professional aspects

We have competent staff

We have healthy finances

We want to succeed with our strategy by:

- Being close to the patient
- Having knowledge of our staff
- Changing through management
- Creating the basis for successful innovation
- Being in close dialogue with our surroundings
